Art Unit: 2145

The restriction was given again because of the typographical error having certain claims being misplaced in the wrong groups.

***Election/Restrictions***

1. Claims 1-7,10-13,15-37 are presented for examinations.
2. Restriction to one of the following invention is required under 35 U.S.C 121:
  - I. Claims 1-7, 17-25, 26-31 drawn to Telecom, Classified in 455 subclass 415.
  - II. Claims 10-13,15-16, 32-36,37 drawn to web-base, Classified in 709 subclass 203.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate method such as it is useable to Telecom which lacked features of the second group of claims, e.g., URL request, classified in class, 709 subclass 203. See MPEP 806.05(d).

Invention II has separate utility such as it is usable by any system which lacked features of group I of claims; e.g., Caller ID classified in class 455, subclass 415.
4. Because these inventions are distinct for the reasons given above and because the search required for each group is different and not co-extensive for examination purpose because these groups would require different searches on PTO's classification class and subclass e.g.

Art Unit: 2145

a) the Group I search (1-7, 17-25,26-31) would require use of search classified in Class 455, subclasses 415, (which would not be required for the Group II);

b) the Group II search (10-13,15-16,32-36,37) would require use of search Class 709, subclasses 203, (which would not be required for the Group I), therefore restriction for examination purposes as indicated is proper.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

6. Any inquiry concerning this communication of earlier communications from the examiner should be directed to Adnan Mirza whose telephone number is (571) 272-3885. The examiner can normally be reached on business days during normal business hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jason Cardone, can be reached on (571) 272-3933. The fax phone number for this Group is (571) 272-8300.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-3900.
